

Polypipe Underfloor Heating is a fantastic whole house heating solution but it can also be fitted within single rooms.

This range of underfloor heating packs contains all the products required for a single room project.

To facilitate extending the pipes in to multiple rooms Polypipe offer a range of manifolds.

1. Select the floor type applicable for the room from the following options:

Solid Floor – Red Floor Panel (Code SO)
 Solid Floor – Staple (Code SS)
 Overlay™ (Code O) Overlay™ Lite (Code OL)

2. Select the total heated floor area for the room and round up to the following options:

*5m² (Code 5) 12m² (Code 12) 20m² (Code 20) 30m² (Code 30)

3. Add the control unit:

ZRU – For connection to existing heating system (Code Z)

*Temperature Limiting Valve – For connection to existing heating systems in rooms up to 5m² (Code B).

4. Optional Room Thermostatic control:

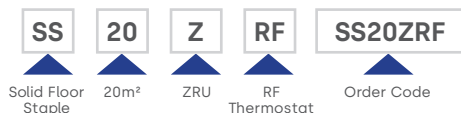

ZRU only (No additional code)
